# 200 Lumens

- Momentary or constant-on, plus 3 user-selectable brightness settings plus strobe (no strobe on MT-230)
- Aircraft-grade 6061-T6 aluminum housing
- Small light-weight design

These non-rechargeable Mini-TAC Pro lights each use a CREE® LED and have a deep parabolic reflector creating a tight, long throw beam for distance illumination. With a waterproof design, each light is constructed from aircraft-grade 6061-T6 aluminum with a Type 3 hard anodized finish. The tail switch on the MT-200, 210 and 220 provides momentary or constant-on functionality, a set of user-selectable high, medium or low-brightness settings as well as a disorienting strobe. The MT-230, specifically design for EMS, has momentary or constant-on functionality and 3 user-selectable brightness modes as well, but starts off in low and cycles up through the medium and high settings. All 4 lights come with a removable pocket clip. The MT-200 is powered by a two AAA batteries. The MT-210 and 230 each use a single AA. And the MT-220 uses two AA batteries. In all cases, the batteries are included.
