

A firefighter in a red helmet and green jacket stands in a forest. A large, charred tree trunk is the central focus, with smoke rising from it. The background is filled with tall, thin trees and a hazy atmosphere of smoke and light. The firefighter is positioned in the lower center, looking towards the charred tree.

BUILT FOR
THE
MISSION®

MYSTERY RANCH makes the best load-bearing gear for the most demanding users in the world based on our heritage of quality and innovation. We build for a different kind of customer, for folks who inspire us, and for men and women with a job to do. We build with the best materials available and the most durable construction methods that exist so that you know our gear will support your mission whether it's on the front line, the fire line, the cleanest line, or the steepest line.

We don't cut corners. Every pack that we build is designed with you in mind—from function and fit to design and comfort. When every item that goes in your pack is a necessity, we want you to be efficient, effective, and, most importantly, safe. We want to be sure that you can get it done, whatever your mission may be.

MYSTERY RANCH® — BUILT FOR THE MISSION®

WARRANTY & REPAIRS

MYSTERY RANCH designs and manufactures packs for the job that needs to get done, supporting customers who rely on our packs to get home at the end of the day. Our Warranty guarantees everything we build against defects in materials and craftsmanship for the practical lifetime of the product. We will happily offer repair or replacement for issues with materials or craftsmanship. Damage due to normal wear and tear or misuse can be repaired for a reasonable charge.

PATENTS

Most MYSTERY RANCH products are covered by US and Foreign Patents, and other Patents Pending.

US Patents include:

US 6,626,342 B1; US 7,673,777 B2; US 8,381,956 B2; US 8,561,866 B2; US 8,950,644 B2; US 8,348,114 B2; US 8,579,171 B2; US 9,173,473 B2; US 9,271,559 B2; US 8,162,194 B2 ; US 8,955,792 B2

CERTIFICATIONS

National Fire Protection Association

UL

CAL FIRE Approved

In 2014, MYSTERY RANCH took the first step toward offering our customers NFPA-certified products by building their quality management system and having it certified to ISO 9001. The next step was to provide third party, Underwriters Laboratories (UL®), with samples that passed the heat and thermal shrinkage resistance test and complied with the load-carrying design and performance requirements of UL® Certified to NFPA. Fire packs are used to carry tools, food, water, and other items crucial to the safety of the user— not only do the packs need to withstand a certain level of heat without failing, the buckles must remain functional after fire exposure to ensure continued use in the field. Now, MYSTERY RANCH is continually expanding the array of wildland fire products that are NFPA-certified, and we are proud to serve the brave women and men who risk their lives for our safety.

MATERIALS & TECHNOLOGY

CORDURA® Fabrics

MYSTERY RANCH-built fire products are made with custom spec'd 330D, 500D, and 1000D CORDURA® with C0 & PU coatings for maximum durability and protection from weather and UV rays.

YKK® Zippers

YKK® zippers are used throughout our packs on the exterior and interior, providing long-haul durability.

AQUAGUARD® Zippers

We use AQUAGUARD® YKK® zippers with nickel-plated sliders. The zippers are strategically placed in areas to protect from dust. These zippers provide exceptional weather resistance and durability.

MYSTERY RANCH

Our load carriage technology includes the patented Futura Yoke, Fire-Specific frame, and pack harnessing. See more info on page 74.

Fire Yoke System

The patented MYSTERY RANCH Fire Yoke system is adjustable and telescopes to fit any torso length.

HOTSHOTS/ HANDCREW

Tested over tens of thousands of overtime hours, cutting chain after chain of fireline, the workhorse of wildland packs enters its next decade of service with ergonomic improvements and even more durability.

- SHIFT Cal Spec
- SHIFT 900 MWP Cal Spec

HOTSHOT CF

Welcome to the HOTSHOT CF era, brought to you by the finest load-bearing equipment solution providers in wildland fire, MYSTERY RANCH. Access and innovation are highlights of the HOTSHOT CF. From the redesigned lid to the reimagined access, this pack was designed from the field and for the boots on the ground. Character, integrity, and innovation are why we come to work and what the HOTSHOT CF represents.

KEY FEATURES:

- 1 Included Hot Shelter Case MOLLE can be set up for right- or lefthanded deployment and slants away from the body to prevent shelter slap and chafe
 - 2 Included newly redesigned Hotshot Lid, "The Brain", provides increased capacity and organizational capability
 - 3 Draw-cord, top-load shroud with additional full zip access to main compartment
 - 4 Wing pockets' low-cut front enables firefighters to reach fuel and water bottles while wearing the pack. It holds up to three fuel sigg bottles, three FSS Canteens, or water bottles up to 40oz - 64oz
 - 5 Laser cut PALS panel for accessories
 - 6 External detail pocket gives easy access to small items like headlamps, flagging, and batteries
 - 7 Fully adjustable Fire Yoke telescopes to fit any torso length, includes sliplocks on shoulder pads for adding saw pad and MR Talk Box accessories
 - 8 Fire Belt system features 2" re-direct webbing and PALS web for MOLLE accessories
- Two internal stretch-woven hydration sleeves and a third on the inner back panel
 - Fire Removeable Stickit Compatible
 - Zippered Fusee sleeves behind wing pocket holding three Fusees per side for helicopter flight compliance
 - All body-facing components built with spacer mesh materials for moisture transfer and body heat dispersion.
 - Pinstripe reflective ribbon

FIRELINE GEAR SHE CAN COUNT ON

During long days patrolling burnouts and digging lines, women need the right gear to get the job done. Meet our newest line of fire packs with harnessing built just for you.

Photo by Noel Scherer

WOMEN'S HOTSHOT CF

Access and innovation.
Redesigned lid and reimagined access.

WOMEN'S HOTSHOT

A workhorse that carries everything.
Hauls everything you need to safely power through the next shift.

WOMEN'S HOTSPEED

Stripped to the essentials.
Designed to meet the specific needs of Engine Companies, Helitack Crews, and Overhead.

WOMEN'S HARNESSING DESIGN

FORM FOLLOWS FUNCTION

MORE ERGONOMIC CURVE TO ALLEVIATE FRICTION POINTS

*COMPARED TO THE STANDARD HARNESSING

NARROWER SHOULDER PAD THROUGHOUT

A new generation of wildland fire packs—complete with ergonomic harnessing designed specifically for the female form to alleviate friction points during hot and hazardous operations.

Why it matters

Over a long season, a wildland firefighter's line pack becomes the one thing she can truly call her own. It's the indispensable workhorse that pulls together the PPE, tools, and rations she needs to do her job. That's why MYSTERY RANCH has revamped our flagship packs to offer greater comfort and functionality for every firefighter. Our new line of women's packs features ergonomic harnessing designed specifically for the female form, alleviating friction points so firefighters can operate safely and effectively in the most hazardous and intense incidents. The fire line is dangerous enough as it is, and those in the middle of the action shouldn't settle for anything less than the best gear for their mission.

AERIAL DELIVERY

We build load-bearing solutions based on our end users' needs. You asked, and we've designed and developed an option for aerial delivery.

BIG ERNIE 2.0

Introducing the BIG ERNIE 2.0. Crafted specifically for aerial-delivered firefighters, the BIG ERNIE 2.0 stands out as the ultimate line gear pack from MYSTERY RANCH. Loaded with versatile features, every component of this pack is engineered to be compressible and stowable. The yoke features quick-release buckles, while the back panel incorporates integrated storage compartments for shoulder straps and harnessing. Featuring a newly updated waist belt that is stowable, along with compression straps and other compatible features, making it entirely jump-compatible and a perfect fit in rappeler belly bags.

KEY FEATURES:

- 1 Stowable yoke with quick-release buckles
- 2 Cobra-lock-ready yoke attachment points included for jump operations
- 3 Zippered front detail pocket with slots for pens, Rite in the Rain®, etc.
- 4 Zippered wing pockets (designed to fit two Forest Service water bottles each) have interior drawcords to secure contents, or can compress to streamline pockets when not in use
 - Fusee sleeves inside wing pocket holding three Fusees per side for helicopter flight compliance.
 - Hydration compartment with dual exit points
 - Interior top mesh zippered pocket
- 5 Integrated fire shelter storage below main compartment with ambidextrous access
- 6 Double-layering and web reinforcement in high-wear areas
- 7 Newly updated stowable waist belt
- 8 Guide loops for vertical compression, that comes out of the bottom of the pack and routes through the loops

SPECS:

Weight:	1.59 kg (3.5 lbs)
Vol:	24 L (1465 cu-in)
Size:	One Size

ENGINE / IA

MYSTERY RANCH builds intelligent equipment that is optimized for initial attack and designed to meet the specific needs of Engine Companies, Helitack Crews, and Overhead.

SHIFT 2 FRAME

Light and fast. Designed for agility during crucial moments, the pack is prepared for that sudden wind shift when the fire crests the hill and starts spotting a mile out. The SHIFT 2 FRAME is crafted to seamlessly work with the SHIFT 900 MWP - BAG ONLY and other spade lock accessories, offering extended attack capabilities, suitability for single resource assignments, and mission-specific versatility.

KEY FEATURES:

- 1 Fully adjustable Fire Yoke telescopes to fit any torso length, includes sliplocks on shoulder pads for adding saw pad and MR Talk Box accessories
- 2 Sliplocks on shoulder pads for adding saw pad and MR Talk Box accessories
- 3 All body-facing components built with spacer mesh materials for moisture transfer and body heat dispersion
- 4 Storage sheath keeps three fusees fully enclosed yet accessible
- 5 Fire Belt Light system features re-direct 2" webbing and PALS web for MOLLE accessories
- 6 Fire Shelter can be set up for right or lefthanded deployment
- 7 Triple-Spade system and web is color coded and securely attaches SHIFT Modules to SHIFT in seconds
- 8 150 cu-in storage pocket for headlamp, batteries, snacks, and other essential gear
 - Updated attachment points for compatibility with Fire Removable Stickit and all MYSTERY RANCH Fire Lids.
 - Pinstripe reflective ribbon

SHIFT SPECS:

Weight: 1.59 kg (3.5 lbs)

Shift Cal Spec

SHIFT 900 MWP

Our most modular system is designed to facilitate problem-solving in the operational fire environment. The removable MOLLE Wing Pockets (MWP) increase the SHIFT 900 from 16 to 20 liters, giving you extra space for fuel canisters, water bottles, and items you need to get to quickly.

KEY FEATURES:

- 1 The zippered removable MOLLE Wing Pockets hold up to three fuel bottles, three water bottles (40oz water bottle, FSS bottle) or one 64oz water bottle growler per side
- 2 Updated Attachment Points for adding lid accessories on top or bottom.
- 3 Shift 2 Frame has discreet storage sleeve keeps three fusees fully stowed yet accessible for those rare moments of emergency and urgency
- 4 CAL FIRE SPEC model includes HYDRO 2.0 carrier and HYDRAPAK® 3.1L DHY Hydration Reservoir – insulated all-black hose, bite valve hardware, and dust cover
- 5 Fire Shelter can be set up for right or lefthanded deployment
- 6 Fully adjustable Fire Yoke telescopes to fit any torso length, includes sliplocks on shoulder pads for adding saw pad and MR Talk Box accessories
 - Pinstripe reflective ribbon
 - Triple-Spade system is color coded, and securely attaches modular Shift 900 MWP to Shift 2 Frame in seconds.
 - Operational Load Shelf helps haul hose packs, mount modules, and can carry other equipment as necessary

Shift 900 MWP Cal Spec

Shift 900 MWP Wing Pocket

Shift 900 MWP Med Lid

SHIFT 900 MWP SPECS:

Weight: 3.3 kg (7.2 lbs)

SC 34

The SC 34 was built with advice and input from B.C. Wildfire Service and our friends in the Squirrel Cage in downtown L.A. It was developed with two groups of end users in mind: International Wildland personnel that don't have a fire shelter requirement and USAR teams that need a 72-hour solution.

KEY FEATURES:

- 1 The zippered removable MOLLE-on Wing pockets hold up to three fuel bottles, three FSS canteen/water bottles, two 40oz water bottle, two 48oz Nalgene, three 30oz Sigg bottles, or one 64oz water bottle growler per side
- 2 Zippered Fusee pockets (both sides) above four rows of PALS webbing for accessory connection
- 3 Includes a modified Shift Frame base system where the overload storage and pocket double as a load shelf. The Stick-it secures overload goods to the load shelf when bag is removed
- 4 Fire Belt Light system featuring 2" re-direct webbing and PALS web for MOLLE accessories
- 5 All body-facing components built with spacer mesh materials for moisture transfer and body heat dispersion
- 6 Pinstripe reflective ribbon
- 7 Fully adjustable Fire Yoke telescopes to fit any torso length, includes sliplocks on shoulder pads for adding saw pad and MR Talk Box accessories
- 8 Loop system for attaching MR Stick It, and makes it Med Lid, Big 10 Lid, or Hot Lid compatible
- 9 Back, side zip access to floating, padded sleeve that fits laptops up to 15" and document/tablet sleeve pocket also doubles as a hydration sleeve
- 10 Two internal removable medical or accessory pockets

SPECS:

Weight: 3.7 kg (8.24 lbs)
 Vol: 33.5 L (2044 cu-in)
 Size: S, M, L, XL
 * See Size Chart on page 71

Available in a bag only option

HOT SPEED

Stripped to the essentials—then rebuilt as PPE with Health and Safety as top priorities—the HOT SPEED is all-inclusive and IA ready. Designed to meet the specific needs of Engine Companies, Helitack Crews, and Overhead, this sleek pack drops the hydration reservoir into the lumbar, maximizing ventilation while freeing valuable upper-back real estate for hosepacks, saw packs, and bladder bags.

KEY FEATURES:

- 1 Fully adjustable Fire Yoke telescopes to fit any torso length, includes sliplocks on shoulder pads for adding saw pad and MR Talk Box accessories
- 2 Zip-access to 250 cu-in storage pocket for headlamp, batteries, snacks, and other essential gear
- 3 Low-profile admin pocket for notebooks, maps, IAPs
- 4 MYSTERY RANCH Fire accessory lids-compatible
- 5 All body-facing components built with spacer mesh materials for moisture transfer and body heat dispersion
- 6 Storage sleeve keeps three fusees fully-stowed yet ultra-accessible for those rare moments of emergency and urgency
- 7 Fire Belt Light system features re-direct 2" webbing and PALS web for MOLLE accessories accessible
- 8 Fire Shelter can be set up for right or lefthanded deployment
- 9 Pinstripe reflective ribbon

HOT SPEED SPECS:

Weight: 1.5 kg (3.2 lbs)
 Vol: 8 L (420 cu-in)
 Women's Size: XS, S, M, L
 Men's Size: S, M, L, XL

PLUS REM

The PLUS REM was designed and built for Rapid Extraction Module support to accommodate the necessary equipment. This pack works with both the SC FRAME and SHIFT 2 (not included) and reflects our load-carriage promise needed for the nature of the Rapid Extraction Modules.

KEY FEATURES:

- 1 Four rows of PALS webbing on each side for attaching MOLLE accessories
- 2 Large zippered external compartment with six rows of PALS webbing and mesh pockets for organization
- 3 Stretch-woven hydro-sleeves on each side for water bottles
- 4 Triple-Spade system and web is color coded and securely attaches SHIFT Modules to SHIFT in seconds
- 5 Capacity for 200+ feet of 11 Mil rope with storage for hardware, harnessing, and webbing
- 6 Zippered lid pocket for easy access to small items and personal gear
 - Separate access to internal hydration sleeve
 - Loop system for attaching MR Stick It, Med Lid, Big 10 Lid, or Hot Lid

SPECS:

Weight: 1.66 kg (3.66 lbs)
 Vol: 50.7 L (3094 cu-in)
 Size: One Size

DOUBLE DRAGON

Hose lays are hard work, no matter what the fuel type or region—the DOUBLE DRAGON is here to help. We designed our Hosepack to carry a range of hoselay styles, be it a Smokey or Travis, a Lake George, an internally packed variation on a Gasner or Jarbo, or simple rolls.

KEY FEATURES:

- 1 Grab handles on both top and bottom for uphill and downhill carry
- 2 Horseshoe mouth controls hose payout and eliminates hangups
- 3 Hose pack with reversible shoulder straps to allow for bottom and top payout
- 4 Stiff foam exterior to easily pack and payout hose in the field or at the station
- 5 Internal divider for multiple diameter hoses
- 6 Nozzle attachment for quick deployment
- 7 Padded bolsters on the back panel for comfort and improved ventilation
- 8 Low-profile shoulder pads designed to lay securely over line gear
- 9 Pinstripe reflective ribbon

SPECS:

Weight: 1.6 kg (3.58 lbs)
 Vol: 20 L (1220.5 cu-in)
 Size: One Size

CARGO

Internal organization and versatile carry options make the MYSTERY RANCH Fire Cargo line essential for the traveling fire fighter. A built-in and compressible laundry bag allows for quarantine of dirty items and greater organization throughout the long weeks of living in a tent.

FLIGHT MONSTER

The FLIGHT MONSTER is a 14-day travel bag ideal for carrying personal gear, line gear, boots, a hardhat, and Nomex equipment. This high-volume duffel bag has multi-carrying systems, including zip access to padded backpack straps with load lifters and sternum strap, stowable padded shoulder strap for over-the-shoulder carry, and heavy-duty top/bottom/side haul loops, which allow you to grab the bag from all sides.

Black

Left Side

Right Side

KEY FEATURES:

- 1 Multi-carry system includes: Zippered access to padded backpack straps with load lifters and sternum strap. Stowable padded shoulder strap for over-the-shoulder carry
- 2 Large, pass-through zippered side pockets for a sleeping pad or other long items with internal zippered access to main compartment
- 3 Top and bottom guided compression straps to minimize form factor when not packed out
- 4 Heavy-duty top/bottom/side haul loops
- 5 Large zippered bottom compartment for a sleeping bag or separating used gear/boots
 - Three, zippered stretch-mesh pockets on inner face of lid allow organization of small items like books, illumination devices, toiletries, and other personals
 - ID window for contact card

SPECS:

Weight: 2.3 kg (5 lbs)
 Vol: 107 L (6548 cu-in)
 Size: One Size

MONSTER

The MONSTER is the little brother to the FLIGHT MONSTER, mirroring many of the same features demanded by the firefighter on the go. It's the perfect 14-day travel bag for your personal gear. The MONSTER features a multi-carrying system, including stowable backpack carry, over-the-shoulder carry, or briefcase-like haul loop carry.

Black

MEDICAL

On the fireline in a medical emergency, every second counts. That's why the MYSTERY RANCH medic-specific bags were designed around quick access, organization, and comfort.

FEMP

For the dedicated Fireline Paramedic or Fireline EMT, the FEMP was designed to allow quick access to all your medical equipment. Every square inch of this pack was designed with function in mind—dedicated pockets for hydration, documents, shears, gloves, and space for your personal gear and admin goodies.

KEY FEATURES:

- 1 Includes BIG LID 10
- 2 Fire Belt system features 2" re-direct webbing and PALS web for MOLLE accessories
- 3 Included Hot Shelter Case MOLLE can be set up for right- or left-handed deployment and slants away from the body to prevent shelter slap and chafe
- 4 Zippered Fusee pockets (both sides)
- 5 Fully adjustable Fire Yoke telescopes to fit any torso length, includes sliplocks on shoulder pads for adding saw pad and MR Talk Box accessories
- 6 Pinstripe reflective ribbon

INTERNAL FEATURES:

- 7 Two 1000 ml IV pockets with clear vinyl windows
 - 8 Two small and two large clamshell-style internal removable pockets with vinyl windows that hook in place have color coded-handles and removable label strips for quick recognition
- Internal hydration sleeve
 - Internal shears pocket with underlying area for surgical gloves
 - Full-length internal zippered sleeve for neck brace

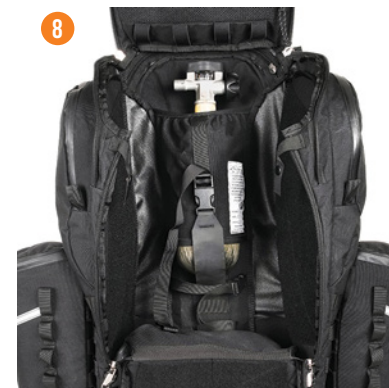

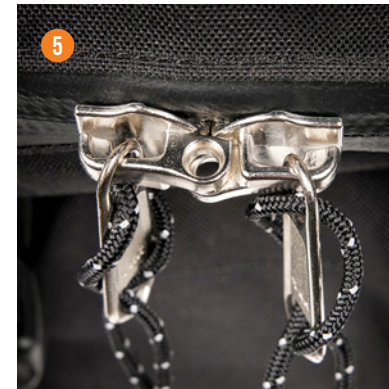

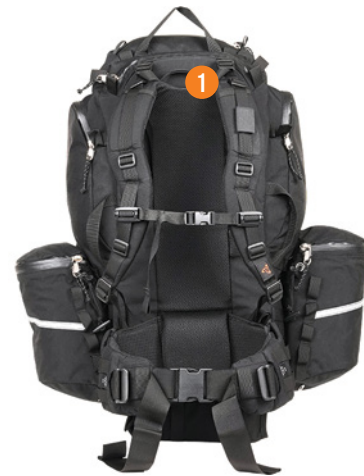

SPECS:

Weight: 3.8 kg (8.4 lbs)
Vol: 30 L (1831 cu-in)
Size: S, M, L, XL
* See Size Chart on page 71

FEMP ALS

The FEMP ALS (Advanced Life Support) is built for the Fireline Paramedic and EMT. It comes with an intubation roll specifically designed to fit into the pack along with an adjustable cylinder sleeve for oxygen tank storage. At 72 liters, the FEMP ALS can also hold all your personal and medical gear.

KEY FEATURES:

- 1 Fully adjustable Fire Yoke telescopes to fit any torso length, includes sliplocks on shoulder pads for adding saw pad and MR Talk Box accessories
- 2 Side and top haul loops for convenient transport
- 3 2 side hydration pockets with external MOLLE for accessories
- 4 External shear pocket and quick clot access
- 5 Lockable bottom compartment for NARC kit
- 6 Compatible with med-lid, stickit, MOLLE Wing Pockets, hydration bladders, and fire shelter
- 7 4 zipper rip zip opening which splays out for rapid access to all internal contents
 - Pinstripe reflective ribbon

INTERNAL FEATURES:

- 8 Integrated oxygen tank storage with an adjustable harness for various tank sizes
- 9 (2) large, (2) small, and (2) IV pouch for internal organization
- 10 FEMP ALS specific designed intubation roll included
- 11 Lid Detail pocket and elastic loops for additional med supplies
- 12 Updated removable medic pouches with rapid ID strips
 - Increased internal volume over FEMP for personal gear and medic- specific intent

SPECS:

Weight: 3.8 kg (8.4 lbs)
 Vol: 72.6 L (4430 cu-in)
 Size: S, M, L, XL
 * See Size Chart on page 71

MED LID

The MED LID is a proud result of continuous, need-based, field tested, end-user feedback. It packs the contents of the red FSS Ten-Man Med Kit—plus additional tools, meds, and supplies to the medic’s level of training—the MED LID integrates clean and secure.

KEY FEATURES:

- 1 Document pocket with pen slots
- 2 Built-in and stowable waist belt/ shoulder sling
- 3 Removable Red Cross Medic Patch included
- 4 Quick-Attach buckles allow integration to most MR packs (even other pack brands)
- 5 Heat resistant hook and loop patch can hold paper strips, grease pencil, or sharpie

INTERNAL FEATURES:

- 6 Compartmentalized for each medic to customize access and organization
 - Double-clamshell design for at-a-glance access to everything

SPECS:

Weight: 0.6 kg (1.4 lbs)
 Vol: 7.4 L (450 cu-in)
 Size: One Size

HYDRATION

No water, no work. The single largest impediment to forward progress in the wildland environment is dehydrated operators. Ensuring the ability to hydrate and logistically support those on the front lines is crucial for mission success.

WATERING HOLE

Transforming the way you transport potable water. The WATERING HOLE includes multiple carrying options to the line and off the line. From the backs of wildland firefighters to the backs of trucks and UTVs, the WATERING HOLE changes the logistics game of keeping the boots on the ground hydrated, efficient, and effective.

KEY FEATURES:

- 1 Comes with a CAL FIRE-approved three-gallon Hydropak featuring Slide-Seal™ for effortless cleaning and ice insertion
- 2 High-flow camp tap measuring 2 feet in length
- 3 Various carrying choices available; attachment as a tool bag or over the shoulder
- 4 Outer pocket designed for hydration supplements
- 5 Compression strap attachment for tool carrying, with buckle threading
- 6 High-visibility haul handles
- 7 Product can be collapsed or stacked
- 8 Potable Water Patch
- 9 Pinstripe reflective ribbon

ACCESSORIES

Our fire accessories were designed to help customize your fire pack, whether you need access to essentials, extra volume, additional organization, or hydration solutions.

BIG LID 10

The BIG LID 10 is a detachable lid that adds additional volume to MYSTERY RANCH fire packs. With two zippered pockets, one which is hydration compatible, additional room sustainment gear can be easily added to your MR fire pack.

KEY FEATURES:

- 1 Two zippered compartments for quick access to small items on the go
- 2 Hydration port on smaller compartment 3L
 - Works with all MYSTERY RANCH FIRE packs
 - Nylon 6,6 hardware & webbing
 - Comes standard on the FEMP pack

SPECS:

Weight: 0.36 kg (0.8 lb)
 Vol: 10 L (610 cu-in)
 Dims: 17" x 12" x 7"

SAWKIT 2.0

Introducing the SAWKIT 2.0, now newly redesigned with a tri-fold layout for effortless access to internal contents. Crafted from durable 1000D CORDURA®, this mobile saw shop offers versatility, seamlessly attaching to your pack or functioning independently. Featuring an array of organization options, including eight pleated tool sleeves, multiple pockets for saw parts, and dedicated pockets for chains.

KEY FEATURES:

- 1 Tri-fold design for ease of access to internal contents with external ID patch placement
- 2 Multiple Lid attachment styles; use as a independent saw lid or alongside any MYSTERY RANCH FIRE LID.
- 3 Independent hang strap allowing for total saw kit access
- 4 Panel with eight pleated independent tool sleeves
- 5 Two chain specific pockets
- 6 Additional detail pockets for spare parts commonly needed in the field.
 - Functions completely attached to the pack or independently as a stand-alone saw shop

SPECS:

Weight: 0.2 kg (0.45 lbs)
 Dims (W x D x H): 15.25" x 3" x 10.5"
 Size: One Size

FIRE REMOVABLE STICK-IT

The FIRE REMOVABLE STICK-IT offers capacity expansion and is the go-to accessory for securing unconventional loads. With contouring pleats designed to accommodate larger volume items like a helmet, it enhances versatility in carrying various gear.

KEY FEATURES:

- 1 Expandable contouring pleats
- 2 Includes quick attach buckles for attachment and removal.
- 3 The removeable stick-it adds easy access and expansion to the shift platform.
 - Compatible with all MYSTERY RANCH FIRE packs

SPECS:

Weight: 0.23 kg (0.5 lbs)
 Dims (W x D x H): 2.5" x 0.25" x 60"
 Size: One Size

TALK BOX SHORT

The TALK BOX SHORT is designed to accommodate a variety of sizes of the KNG series with belt clips. This radio case attaches via MOLLE to our fire belt system. The padded case protects the radio against slips, trips, and falls, and its soft, non-abrasive lining protects the radio's printed numbers and letters.

TALK BOX shown on Shift Plus 900 pack

KEY FEATURES:

- 1 Bungee and tack button secures radio without obstructing functionality and provides one-handed, no-look removal and replacement
- 2 Allows access to push-to-talk button and lapel mic port
- 3 Rigid padding protects sides and bottom
- 4 Holds one shorter Bendix King radio; KNG Handheld Ergonomic to radio features
- 5 The updated design is compatible with radio belt clip
 - Added soft-touch panel to prevent wear on radio buttons
 - MOLLE attach to PALS webbing on waist belt
 - Nylon 6,6 hardware & webbing

SPECS:

Weight: 0.1 kg (0.2 lb)
 Vol: One shorter Bendix King radio; KNG Handheld
 Dims: 5.5" x 3.25" x 2.75"

TALK BOX SHOULDER SLING

Designed for the fire house and all hazard incidents. The TALK BOX SHOULDER SLING is designed for mobility, comfort, and durability. Dual one-hand adjust buckles allow for the right fit regardless of height. The TALK BOX SHOULDER SLING is machine washable and built to last for an entire fire career.

KEY FEATURES:

- 1 Adjustable strap length, one-handed easily adjusted strap length
- 2 Compatible with all MYSTERY RANCH Talk Boxes
- 3 Anti-sway stability strap
- 4 PALS webbing for lapel mic attachment and ID Patch options
 - Machine and extractor washable.

SPECS:

Weight: 0.23 kg (0.5 lbs)
 Dims (W x D x H): 2.5" x 0.25" x 60"
 Size: One Size

TALK BOX 5000

A durable and easily adjustable solution specifically designed around the BKR 5000 radio and clam shells.

Short

Tall

KEY FEATURES:

- 1 Adjustable buckle closure for durability and security
- 2 MOLLE attach, shoulder harness and belt loop attach compatible
- 3 Patented adjustment system specifically for the BKR 5000 and BKR clamshell sizes using, universal radio holster vertical adjuster and horizontal adjustment straps
- 4 Rigid padding for structure and durability
- 5 Allows access to push-to-talk button and lapel mic port
 - Fits rechargeable and AA battery clamshells

SPECS:

Weight: 0.1 kg (0.2 lb)
 Size: Short, Tall

HOT SHELTER CASE MOLLE

A requirement basic yet vital, the Shelter Case must operate perfectly in an emergency, yet live virtually unnoticed during everyday operations.

KEY FEATURES:

- 1 Double-layered in high-wear areas
- 2 6,6 Nylon web for additional durability on corners and seams
- 3 Ambidextrous set-up for right or left hand access
- 4 MOLLE with tuck-tabs system for attachment
- 5 Four-flap closure seals completely and deploys rapidly and reliably
- 6 Newly updated with hypalon tabs for improved access

SPECS:

Weight: 0.2 kg (0.5 lb)
 Vol: 3.3 L (200 cu-in)
 Dims: 9" x 4" x 5.5"

Back

Fire Shelter on Pack

SHELTER CASE BOTTOM

Using the web straps and auto-lock buckles built into the bottom of our Hot packs, this shelter case mounts tight and minimizes sway. We've also built a wedge that angles the shelter even further away from the body, effectively eliminating rub on the hips and thighs.

Shelter Case shown on Hot Top

KEY FEATURES:

- 1 Alice Clip
- 2 Plastic wedge keeps case off hip and legs

SPECS:

Weight: 0.3 kg (0.6 lb)
 Dims: 9" x 4" x 5.5"

SHELTER CASE HIP

The HOT SHELTER CASE HIP mounts to our M4 lumbar system in the corner where the waist belt and bag meet. Keeping the shelter tucked away as close to the pack as possible lets you work and hike with minimal interference. We've included a specially designed wedge that kicks the shelter out away from the hip and leg to eliminate chafing.

Shelter Case shown on the Hot 3 Pack

KEY FEATURES:

- 1 Hook and Loop patch closure
- 2 Rapid-access orientation for a fire shelter
- 3 Plastic wedge keeps case off hip and legs

SPECS:

Weight: 0.2 kg (0.4 lb)
 Dims: 9" x 4" x 5.5"

FIRE TECH HOLSTER

Built with durable 500D CORDURA® fabric, the FIRE TECH HOLSTER offers a one-hand bungee and tack button opening to the secondary external pocket. Attachment is made easy with multi-attach MOLLE options to PALS web, a shoulder pad or to a belt.

KEY FEATURES:

- 1 Main compartment has coated, weather-resistant YKK® zipper
- 2 Padded front and back
- 3 Internal divided pocket perfect for cable storage
- 4 Front pocket has a stealthy, adjustable elastic closure with easy to grab pull tab
- 5 Double row multi-attach MOLLE lets the holster attach to PALS web, a shoulder pad, bino harness, or on to a belt

SPECS:

Weight: 0.1 kg (0.3 lb)
Vol: Fits most phones

HOLSTER shown on Hotshot belt

FTW POUCH

Our all-purpose belt-mount accessory, the FTW is the perfect solution for a 40 oz water bottle, a grip of fuseses, MSR® fuel bottle, hoseclamp, or even an inline tee.

KEY FEATURES:

- 1 One-hand, operable cinch retainment system pulls bottle away from thigh when secured
 - 2 MOLLE with tuck-tabs accessory attachment system
 - 3 Double-layered for durability
- Grommated drain hole for dirt, debris, and water

SPECS:

Weight: 0.1 kg (0.3 lb)
Dims: 10" x 4" x 3.5"

FTW POUCH shown on FEMP pack

MEDICAL CROSS PATCH

A quality MEDIC PATCH designed for quick identification.

KEY FEATURES:

- 1 Vibrate red for visibility
- 2 Hook backing
- Nylon

SPECS:

Weight: 0.0 kg (0.1 lb)

Dims: 6" x 6"

FIRE BOTTLE POCKET

The BOTTLE POCKET mounts with MOLLE and provides easy access to hydration with its elastic closure that when not in use, easily secures the bottle. Grommetted drain hole allows quick dry.

KEY FEATURES:

- 1 MOLLE attach system
- 2 Simple elastic closure keeps water bottle secure
- 3 Grommetted drain hole
- 4 Articulated top for easy access
- Accommodates 32 oz government issued water bottles

SPECS:

Weight: 0.1 kg (0.3 lb)

Vol: 5 L (30 cu-in)

HOSE CLAMP HOLSTER

A hoseclamp holster must walk a fine line between being Too Much (an oversized bag with extra tools and poor access) and Not Enough (a spider web of, well, webbing). Our holster finds a sweet spot, with enough structure for no-look access and replacement, without extras that make it unwieldy and inefficient.

KEY FEATURES:

- 1 One-Handed, Quick-Draw Access
- 2 Embedded magnet retention drops out of the way during hoselays
- 3 Structured holster allows for no-look access and replacement
- 4 Mounts to belt with MOLLE attachment system
- HDPE plastic for structure
- Nylon 6,6 webbing

SPECS:

Weight: 0.1 kg (0.3 lb)

Dims: 10" x 4" x 3.5"

BELT BOX

A padded, rectangular case for cell phone, extra clamshell, strobe light, signal mirror and flagging. The BELT BOX attaches via MOLLE to our fire belt's PALS webbing.

KEY FEATURES:

- 1 MOLLE Attach accessory box for quick access to small items while on the go
- 2 Padded design keeps items safe and protected
- 3 Oversized lid and heat resistant hook and loop attach for quick access and secure closure
- Attaches to most MYSTERY RANCH Fire waist belts

SPECS:

Weight: 0.1 kg (0.3 lb)

Vol: .5 L (30 cu-in)

RELOAD ACCESSORY

Designed to fit in the MYSTERY RANCH GO-DEEP SLING, the RELOAD stuff sack allows you to carry extra flares for a quick grab-and-go resupply for your firing bag. The zippered main compartment has a top buckle secure strap for easy access to the bag's interior. Although it's designed to work in tandem with the Sling, it also is a great sack to organize smaller PG gear in any pack.

KEY FEATURES:

- 1 Zippered main compartment with top buckle secure strap for easy access to the interior of the bag
 - 2 Easily fits inside the Go Do Deep Sling for firing operations
 - 3 Holds 100 Hotshot Flares for efficient and effective reloads during firing operations
- The RELOAD ACCESSORY allows you to carry extra flares to resupply the GO-DEEP SLING firing bag

SPECS:

Vol: 6.3 L (38 cu in)
 Weight: 0.2 kg (0.43 lb)
 Dims: 5" x 6.5" x 10.5"

GO DEEP SLING pg. 11

MURSE

Call it what you want; we like to describe it as the "man purse," but there is no shame in that. The MURSE is your solution for organizing all the necessities for the required documentation, pens, pencils, and a Rite in the Rain® notebook on the fire line.

KEY FEATURES:

- 1 Zippered clamshell opening with internal organization for small items
 - 2 Accessory pouch for carrying essentials: notepad, pens, pencils, lighter, and other small items
 - 3 Exterior slot for quick access to a lighter
- Fits easily in Nomex cargo pocket or your pack lid

SPECS:

Weight: 0.07 kg (0.15 lb)
 Dims: 6.75" x 5.25" x 0.5"

THE BACKBONE SERIES

Created to educate the public on the sacrifice and work that goes into responding to wildland fires.

The MYSTERY RANCH Fire Line is founded on the backs of a professional workforce whose primary duties are the suppression and management of wildland fires.

Wildland firefighters are trained and built for their mission. They ask for very little, yet they serve the American public, lead from the front, and risk their lives to protect public lands, private property, and the lives of others. To recognize the efforts of these men and women, MYSTERY RANCH would like to introduce the Backbone Series.

The Backbone Series will highlight the backs behind the packs — the faces of those who put on the packs and have their boots on the ground — the backbones on which the MYSTERY RANCH Fire Line and the Federal Fire Response have been built.

Our intent is to educate the public on what makes this job so fulfilling and to reveal where challenges lie for those who have chosen this profession. We will recognize the men and women who wear our packs daily and honor those who have worn them for the last time—our valued fallen.

Photo by Robert LebBlanc

To fuel this educational campaign, we have created the MYSTERY RANCH Backbone Scholarship

MYSTERY RANCH seeks to solicit contributors for the Backbone Series and educate the public on the realities of a career in Wildland Fire — the good, the bad, and the ugly. In return, contributors will be eligible for the Backbone Scholarship.

Join us on this journey as MYSTERY RANCH leads from the front to learn more about the Forestry Technicians, Supervisory Forestry Technicians, Firefighters, and Wildland Firefighters that put their lives, families, and well-being on the line.

Visit mysteryranch.com/backbone-series to learn more.

SPECIAL EDITION BACKBONE PACKS

To fund the scholarship, we have taken two of our top-selling everyday carry packs — the BLITZ 30 and the 3-WAY 18 — and built them in “wildfire black” with great intent to create a scholarship fund called “The Backbone Scholarship” to support and assist in the education of seasonal Forestry Technicians that want to further their careers in fire or outside of fire. These \$1000 scholarships will help the men and women that go above and beyond in the off-season. Fire Classes, medical training, and college education aren’t cheap. Countless men and women work for Federal Land Management Agencies as Forestry Technicians and seek to better themselves in the off-season to compete for permanent appointments. Some individuals use fire as a means to assist with greater life goals and objectives.

A portion of the proceeds from the sale of these unique packs will fund (12) \$1,000 scholarships to the winning contributors. Winners will be selected anonymously throughout the duration of the campaign.

These two special packs that support the scholarship are available for purchase at mysteryranch.com

3-Way 18 - Wildfire Black

BLITZ 30 - Wildfire Black

3-WAY 18

These bags feature the same design principles and durability that MYSTERY RANCH is known for and are built to survive the harshest commute, wherever that may be.

KEY FEATURES:

- 1 Zippered main compartment has multiple accessory pockets to organize your daily kit
- 2 Expandable zipper provides five extra liters of storage - zips out of the way when not needed
- 3 Front rip-zip accessory compartment has magnetic locking buckle to secure contents when you're on the move
- 4 Removable shoulder strap stores in a dedicated, interior pocket
- 5 Padded sleeve fits laptops up to 15"
- 6 Fully cushioned backpack straps tuck away in a dedicated compartment when not in use

NON-PROFIT SUPPORT

As long as MYSTERY RANCH has made backpacks, we've always found the importance of donating to substantive issues, groups, causes and initiatives. We contribute to the organizations that are doing the real work, fighting the good fight, and helping those who need support. In short, we've sought out philanthropic connections that are important to building and supporting the community that put their lives on the line.

U.S. HOTSHOTS ASSOCIATION

U.S. HOTSHOTS ASSOCIATION is an organization with a specific mission: to support, promote, protect, and preserve all Hotshot Crews and Hotshot Crewmembers — current, former, and future. Dedicated to preserving the rich history of the U.S. Hotshot program, committed to mentorship, and intended to support special and dire needs, The USHA also focuses on directly influencing to directly influence innovation and advancement across the major quarters of Wildland Fire culture, policy, and operations: Safety, Leadership, Suppression, and Management.

ushotshots.com

AMERICAN WILDFIRE EXPERIENCE

The American Wildfire Experience (AWE) is a small non-profit rooted in understanding, examining, and telling the story of wildland fire. Through multimedia storytelling, oral histories, and other projects and initiatives, AWE works to facilitate dialogue, communication, and education around the challenges and opportunities of our current wildland fire situation in the United States. They believe that sharing scientific data and knowledge tied together with human experience is the best way to tell the story of wildland fire and to have an impact on the way in which wildland fire burns across both our social and ecological landscapes.

wildfire-experience.org

WILDLAND FIREFIGHTER FOUNDATION

The Wildland Firefighter Foundation's main focus is to help families of firefighters killed in the line of duty and to assist injured firefighters and their families. They honor and acknowledge past, present, and future members of the wildland firefighting community, and partner with private and interagency organizations to bring recognition to wildland firefighters.

wffoundation.org

ERIC MARSH FOUNDATION

The Eric Marsh Foundation (EMF) for Wildland Firefighters supports the next-of-kin of wildland firefighters who perished or were injured in the line of duty. The Eric Marsh Foundation was founded to honor and continue the legacy of Eric and the other 18 members of his crew who perished on June 30th, 2013, while fighting the Yarnell Hill Fire in Yarnell, Arizona.

FIRE CREW PATCHES

Want to see your crew among the ranks of the MYSTERY RANCH Fire Elite? If your crew is using MR gear, let us know your crew name, the packs you use, how long you've used them, and your station address, and we'll put your patch up on the map.

mysteryranch.com/mystery-ranch-fire-crews

FEATURES

Many of the MYSTERY RANCH fire packs have these features. The Fire-specific yoke, featuring our patented Futura system, telescopically adjusts to any torso length and promotes ventilation. The packs also feature a re-direct waist belt system that secures in a natural, forward pull direction that requires less effort to tighten. With patented features and construction methods, the waist belt cants and conforms over the hips to effectively transfer and distribute the weight, eliminating slippage down over the hips.

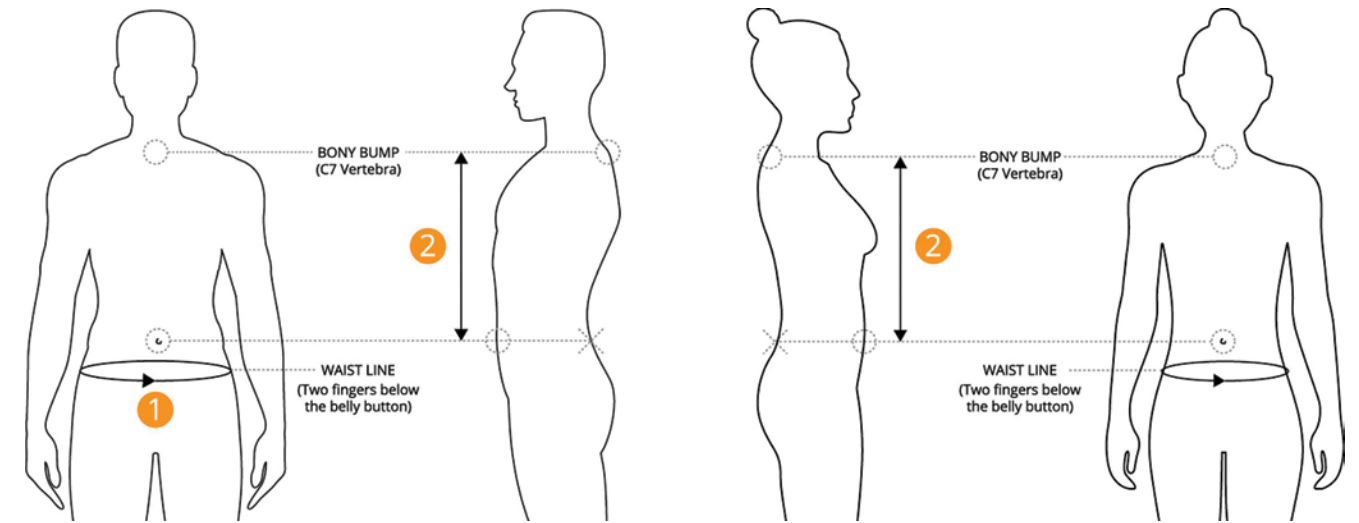

KEY FEATURES:

- 1 Fire Yoke - Specifically designed 2" narrower than our standard Futura Yoke to maximize ventilation without compromising load carriage comfort.
- 2 External fuel bottle carriage - This option allows for separation of fuel and water (Hotshot & Hotshot TL packs).
- 3 Haul loop handle - Also doubles as hardhat hanger or a location for additional tape/ flagging rolls.
- 4 Admin pocket - For notebooks, IAP, pens/pencils, maps, IRPG.
- 5 Fuses zip away - Secure storage of fuses for rotor-wing transport.
- 6 Wing pockets - Wing pockets hold up to three fuel bottles, three water bottles (40oz Hydroflask®, FSS bottle), or one 64oz Hydroflask® growler per side.
- 7 Angled pack bottom - Keeps fire shelter off the butt and thighs while compression eliminates shelter motion.
- 8 Low-cut tailoring - Wing pockets' low-cut front enables firefighter to reach fuel and water bottles while wearing pack.
- 9 MOLLE accessory attachment
- 10 Incorporated hydration - 100+ oz. on CAL FIRE spec models.
- 11 S-curve shoulder pads - Ergonomically shaped to the torso and keep straps out of armpits while working.
- 12 Wicking material - On all body-contact surfaces - transports heat and moisture away from the body.

SIZING

GETTING YOUR SIZE

The key to a comfortable pack load is the properly fitting backpack. We've designed a more custom fit into our packs with simple sizing based off two measurements. To find the appropriate size waist and yoke for your pack, collect the following two measurements, then reference the sizing chart below.

TORSO

Use a tailors tape measure or string and have a friend measure between the bony bump at the base of your neck (C7 vertebra) to the spot on your spine that is just behind your belly button.

WAIST CIRCUMFERENCE

Measure around your waist just above the top of your hip bones (roughly two fingers below your belly button).

Men's/Unisex Framed Sizing					
	S	M	L	XL	One Size (OS)
Torso	15 - 20 in 38 - 51 cm	15 - 20 in 38 - 51 cm	17 - 24 in 43 - 61 cm	17 - 24 in 43 - 61 cm	16 - 22 in 41 - 56 cm
Waist	26 - 32 in 66 - 81 cm	31 - 36 in 79 - 92 cm	35 - 40 in 89 - 102 cm	39+ in 100+ cm	30 - 40 in 76 - 102 cm

Women's Framed Sizing					
	XS	S	M	L	One Size (OS)
Torso	13 - 18 in 33 - 46 cm	13 - 18 in 33 - 46 cm	16 - 22 in 41 - 56 cm	16 - 22 in 41 - 56 cm	16 - 22 in 41 - 56 cm
Waist	26 - 32 in 66 - 81 cm	31 - 36 in 79 - 92 cm	35 - 40 in 89 - 102 cm	39+ in 100+ cm	30 - 40 in 76 - 102 cm
