

BH1-4H

Up to 6.9 bar (100 psi) and 260 l/min (69 gpm)

Portable, ultra-lightweight, robust and versatile motor pump. Weighing just 9.5 kg, it is equipped with a **2.5 HP* Honda GXH50 4-stroke engine** and a **VFT_1SP4 single-stage centrifugal pump**, compatible with foam concentrate. It offers excellent performance, with a **maximum pressure of 6.9 bar** and a **maximum flow rate of 260 l/min**, enabling it to handle any emergency situation involving self-protection and firefighting.

Technical specifications

Engine	Honda GXH50
Centrifugal pump	1-stage VFT
Fuel tank	0.2 gal 0.77 l
Dry weight	21 lbs 9.5 kg
Maximum pressure	100 psi 6.9 bar
Maximum flow rate	69 gpm 260 l/min
Dimensions	350 mm x 280 mm x 420 mm
