

vft Hose Pack

Light, versatile and ergonomic.

vft Hose Pack

Light, versatile and ergonomic

The **vft Hose Pack** has been designed for transporting hoses, portable pumps, fuel tanks and other heavy loads. Its ergonomic design, inspired by the load-carrying systems used in high-mountain backpacks, together with its padded harness, provides the comfort required for carrying heavy equipment.

It features a modular design with a clip system, **allowing the base to be detached to reduce storage and transportation space requirements.** It also makes the backpack lighter and facilitates the transport of the VFT Black Panther portable pump. The backpack frame is manufactured from high-density polyethylene (HDPE), providing a lightweight, durable, and highly resistant structure.

Comfortable

Size adjustment system adaptable to different body heights, with a padded and reinforced waist belt that helps transfer the load to the hips. It incorporates padded reinforcements in strategic areas, providing good ventilation and lightness during use.

Versatile

Its removable canvas bag and securing straps allow for different load configurations to carry heavy equipment or accessories, such as hoses, fuel cans, portable pumps, clothing, helmets, and more.

Technical specifications for the backpack			
Weight	3,85 ± 0,05 kg 3,20 ± 0,05 kg w/o bag 2,10 ± 0,05 kg w/o base	Frame material	HDPE
Overall dimensions	58.8 x 40 x 30 cm 23.1 x 15.75 x 11.81 in	Harness material	Cordura 1.000
Bag dimensions	62 x 36,5 x 24 cm 24.41 x 14.37 x 9.45 in	Bag material	Lona PVC
Maximum load	25 kg 55.1 lb	Fastening straps	Nylon
Capacity	60 L		

1 HDPE Structure

Technical Specifications

- Made of 10 mm thick high-density polyethylene (HDPE).
- Durable. Supports up to 25 kg of load.
- Highly breathable. Structure features perforations in the dorsal, lumbar, and neck areas.
- Top handle with padded protection for easier carrying and vertical transport.

NEW • Removable base for improved transport of the VFT Black Panther portable pump and reduce the storage space.

NEW • Simple clip-on system for easy removal of the base.

2 Harness and belt

Thanks to its design inspired by the load-carrying system used in high-mountain backpacks, it allows the transport of heavy items to be carried out comfortably.

Technical Specifications

1 S lots for mounting the harness at different heights to accommodate different user sizes.

5 Load adjustment straps.

2 Padded handle on the structure to assist with lifting.

6 Adjustable chest strap.

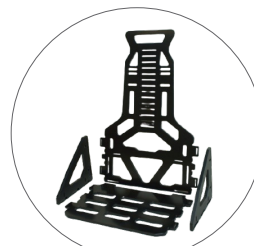

3 Padded and reinforced belt that helps support the load on the waist.

7 High stability during movement.

4 Hand rest straps for use while walking.

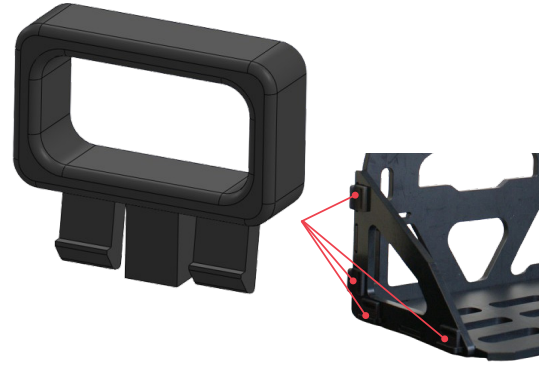

NEW Removable base for improved transport of the VFT Black Panther portable pump and reduce the storage space.

3 Clipping system

This product can be easily assembled and disassembled thanks to its quick and secure clip system. It's made up of several parts, allowing it to be adapted to each need and offering greater versatility of use.

Made from injection-molded POM, it offers high mechanical resistance and excellent durability against wear. To remove it, simply press both lower tabs simultaneously, preventing accidental release during use.

4 Available configurations

BVB0403-AAA0B · Vft Hose Backpack

The bag features a front opening and flap closure that allows for quick loading and unloading of hoses. Up to four hoses can be loaded and secured, either in single fold, double fold, or coiled configuration.

Technical Specifications

- 1 Material: PVC tarpaulin.
- 2 High-visibility reflective side strips.
- 3 Capacity: up to 4 hoses.
- 4 Includes load securing straps.

BVB0404-AAA0B · Vft Load-Carrying Backpack

Allows transport of all types of items. Does not include the bag.

Technical Specifications of the Straps

- 1 Material: 50 mm wide nylon.
- 2 Color and buckle design for easy use.

5 Backpack Base Assembly/Disassembly

Thanks to its assembly and disassembly system, the product adapts to each specific need.

- Reduces the space required for storage and transport of the backpack.
- Reduces the overall weight for a lighter, more comfortable transport of the VFT Black Panther motor pump (BP2 & BP4).

Follow the drawing instructions to assemble and disassemble the base:
