Portable Eductor with On-Board Foam Access

A Portable In-Line Eductor combined with an on-board foam tank will supply large quantities of foam without the investment of a built-in foam system or the inefficiencies of handling 5 gallon pails.

- How does it work?
 - Install a foam tank (20 or 30 gallons)
 - Connect the foam tank to a quick disconnect on the pump panel
 - Connect the Eductor to a discharge
 - Connect the Eductor pickup to the quick connect
 - Open the foam valve
- What is included?
 - An Eductor with a special pickup assembly with a quick connect coupling
 - A Foam Access Panel Mount Kit
 - A Quarter Turn Valve with Tee Handle and Label

This quick and easy setup can be retrofitted to most apparatus to greatly increase foam capabilities over the conventional pail method. For increased flexibility, a separate standard pickup assembly can be added for standard pail use.
