

"Leading the World in Affordable, Effective Portable Foam Systems"

4002A

5 GALLON (19 Lt) BACKPACK

The Scotty 4002A Backpack was designed to act as a simple, portable reservoir for water and/or foam concentrate (Class A or Class B). It provides the wearer with a safe and comfortable way to carry liquids used during fire operations. Made from a fabric re-inforced, polyester material called XR-5, making them extremely durable and UV resistant. The high-visibility yellow colour allows the Scotty Backpack to stand out through smoke and foliage. Each backpack has a standard 3/4" garden hose thread outlet and uses high strength nylon webbing for shoulder and sternum straps. Specifications for the Backpack are listed below.

4002A Back-Pack

Capacity: 5 gallons or 19 Lts

Dimensions: 25" H x 16.5" W

Features: A 4" Filler Port with debris Screen (removable). Sealing Lid (Screw Cap) with O-Ring and anti-loss retaining strap. 2" long nylon Pull-Tab mounted on both sides of bag, just beneath Filler Port to assist opening bag during filling. Standard, 3/4" Garden Hose Thread Outlet Port. Location: 3" from bottom center. 2" wide high strength Nylon webbing shoulder straps (Backpack style). Each shoulder strap has a 2.5" x 6" protective shoulder pad. Shoulder pads are movable to any point along shoulder straps. A metal snap hasp is located at upper-chest height on the left shoulder strap to allow the pump to be clipped and held to the strap. A sternum strap with quick release buckle on 1" wide nylon webbing connects across the chest between the two shoulder straps. A 1" wide nylon webbing carry strap is located on the top of the bag.

(The 4002 Back-Pack is pictured at left with a 4000 Water Hand Pump and 4062 Pick Up Hose)
