

# MERCURY™

## QUICK ATTACK MONITOR

The Mercury Quick Attack Monitor is the newest innovation in firefighting equipment. This monitor is smaller than any other portable ground monitor so it can be quickly set up and left unmanned at the fire scene to free up valuable personnel.

- Compact Size & Weight
- Rated Flows Up To 500 GPM (1900 LPM)
- Quick Deployment
- Better Ground Stability
- Unmanned Use

### NOZZLE CHOICES

Light Weight - 14lbs without Nozzle

Stable at Rated Flows

Quick Deployment

Easy Storage in Crosslays or Mounting Bracket Available
