

Breathing Apparatus 60 Metre Guide Line

The purpose of a main BA Guide Line is to set the path for BA teams to follow when entering smoke filled scenarios. The BA Guide Line is 60 metres in length and stowed in a heavy duty canvas bag.

Features:

- 60m guide line
- Metal ferrules for direction every metre
- Heavy duty canvas
- 25mm wide webbing carry strap
- Heavy duty zip to open / close bag
- Easy re-enforced line feed hole at top of bag
- 1 x Large carabiner

Size: H 27cm x Ø 18cm

Weight: 1.9kg

The guide line features a sequence of ferrules at 1m intervals to indicate direction for the fire fighter by touch.

6 Metre Personal Guide Line

Personal Lines are 6m in length and fastened to the main BA Guide Line when required. The Personal Line has a ring at the one metre mark to lock off.

Features:

- 1m ring and fasten point from start of line
- 6m guide line
- Heavy duty canvas
- Single press stud to open pouch
- 1 x Large carabiner to connect to main BA Guide Line
- 1 x Medium carabiner to connect to BA

Size: W 19cm x D 3.5cm x H 13.5cm

Weight: 290g
