

Stabilisation System

This new Generation Stabilisation system has been developed to stabilise in a quick secure way. The quick lock system makes it possible to adjust the strut quickly to any chosen length. This gives an infinitely variable height setting, at any possible position

Special Quick Lock System Infinite Height Adjustments

Manufactured from high quality aluminium 50% weight reduction in comparison to other currently available strut systems, with no stability compromise

Covex Rescue Glove

Unique features of the Covex Rescue Gloves are the excellent fitting, great sense of tangibility, best cutting and a penetration resistance. The glove has been anatomically pre-shaped, resulting in a natural fitting feeling.
