Centurion Hose

Tough high pressure fire hose

Professional fire brigades need the highest performing layflat fire hose possible, that's why Centurion has been developed. Centurion has been approved for use by the NSW Fire Brigade and the CFA, as well as the ADF (Australian Defence Force). For extreme fire fighting conditions, a high pressure (Class H) fire hose is absolutely essential. With Centurion hose fighting on your side, you have total peace of mind.

Features:

- mildew resistant due to its synthetic construction
- maintenance free
- ready for mounting to a fire truck or other deployment situation
- can be stored wet
- complies with fire services and ADF standards
- It is available in a wide variety of diameters
- 12 month full replacement warranty
- Shipped complete with fittings if required

The Centurion layflat fire hose has been constructed with the demands of professional fire fighting units in mind. The internal tightly woven polyester jacket makes this hose suitable for high pressure pumping applications, combined with protection against abrasion and exposure to the elements.

All Centurion fire hose are sold as kits, complete with stainless steel clamps, shut off nozzles and BPS fittings, so they're ready for immediate use. Usually this hose is supplied in 30m lengths but longer lengths can be made up to 200m.

This twill-woven fire hose is made from polyester with a synthetic rubber lining and requires no drying after use.

It is mainly used for:

- Fire brigade use
- Hose layer units for brigade support
- Commercial fire protection
- High pressure wash-down

Specifications

Class	Inside diameter mm	Inside diameter inches	Working Pressure kPa	Test Pressure kPa	Burst Pressure kPa
H	25	1"	2100	3150	8000
	38	1½"	2100	3150	7400
