

## CPR Training

### Ambu CPR Pal

The Ambu CPR Pal manikin is a simple and cost-effective tool to assist in the training and education of Cardio Pulmonary Resuscitation. Ambu CPR Pal has a unique hygienic system which allows simple decontamination of the mouth/nose pieces and protects users from cross contamination, eliminating internal cleaning.

Each Pal comes complete with 5 mouth/nose pieces, 100 airway bags and carry case.

### Laerdal Little Anne

The Laerdal Little Anne manikin is a realistic, inexpensive and lightweight adult CPR trainer with all the essential features for adult CPR training. Its durable and convenient design makes hands-on practice affordable for every student. The convenient lightweight design makes Laerdal's Little Anne easy to transport. The durable construction allows unequalled long-term use with the internal compression tests showing no product degradation after more than one million chest compressions at a depth of 50 mm.

The Laerdal Little Anne manikin has been developed to provide effective adult CPR training without compromising realism or quality.

### Laerdal Baby Anne

The Laerdal Baby Anne manikin was developed to provide effective infant CPR training without compromising realism or quality. The convenient packaging of four Baby Anne manikins assists with easy transportation. The low price makes hands-on practice affordable for every student.
