

Fire Dex Flash Hood - FDFH81PFNB

Fire-Dex flash hoods provide Fire Fighters with maximum protection and comfort in the heat of the battle. To ensure best fit and true comfort the Fire-Dex flash hoods feature flat lock hood seams and TrueFit™ secure elastic to provide a secure fit second to none.

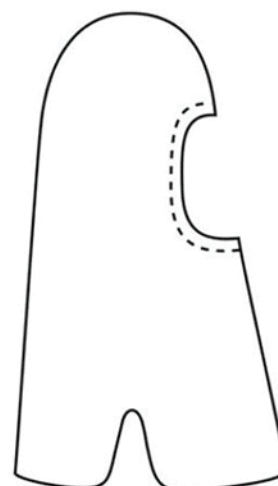

The H81 Flash Hood is a 2 layer, long seamless bib with notched shoulder, compliant to NFPA 1971, current edition. All Fire-Dex NFPA flash hoods contain a double layer, with full hemmed face opening and bottom.

P84/Lenzing Blend

This yellow synthetic fiber has higher heat resistant capacities than both Nomex and Nomex/Lenzing. Also the weight is 8.5 o.p.s.y. The material is a blend of 40% P84 and 60% Lenzing.
