

FireDex - Rubber Fire Boot

The Fire-Dex Rubber boot is a classic staple to firefighting PPE. Waterproof with thermal insulation and a steel protective package make this an ideal, economical choice for protective footwear.

Meets all NFPA 1971, 2013 structural footwear requirements.

Product Features

- Integrated pull-on loops
- 14" tall
- Wool lining
- Protective Package: Steel Toe, Plate, and Shank
- Reinforced rubber shin guard
- Reinforced rubber heel
- Reflective trim
- Articulating louvers on side tread for added traction
- Tread pattern to push water outward
- Contoured heel cup to reduce heel slippage
- Unique, custom-made footbed

Materials

- Rubber with Nitrile provides superior abrasion resistance and FR properties
- Silicone Treated to prevent light degradation and increase lifetime of the boot
- Reinforced Toe, Shin, & Heel Kick
- Integrated Pull-on Loops designed to last the lifetime of the boot
- Enhanced Visibility with reflective trim around sole and yellow reinforcements
- Wool lining insulates and wicks moisture
- Sock Liner reduces foot, leg, and back fatigue
