

**BRT FIRE & RESCUE SUPPLIES**

## **FireDex - H41 Interceptor™ with DuPont™ Nomex® Nano Flex**

*Flash Hoods - FireDex H41 - Interceptor, Nano Flex - 3 Layer Hood 20% PBI/80% Lenzing/Nano Flex Barrier*

H41 Interceptor™ particulate blocking hoods reduce firefighters exposure to persistent fire ground carcinogens and other harmful contaminants.

This 3-layer hood features an inner layer of DuPont™ Nomex® Nano Flex sewn between 2 layers of 6.0oz PBI®/Lenzing (20%/80%).

The H41 Interceptor™ with DuPont™ Nomex® Nano Flex offers 3 sizes to provide you with a comfortable fit; M, L & XL.

Benefits Include:

- Unmatched breathability compared to moisture barrier technology
- Maintains excellent flame and heat resistance
- TPP of 40.9 and THL of 357.1
- Exceptional breathability and elasticity
- Comfortable, thin, & lightweight
- Laundry durable

**Quality and Innovative Fire Rescue Equipment**
