"Quality and Innovative Fire and Rescue Equipment" MARCH 2017

## NEW PRODUCT ANNOUNCEMENT

# ITS TIME TO GET PERSONAL

# seek<sup>TM</sup>

thermal

- AFFORDABLE
- LIGHTWEIGHT
- POCKET SIZED
- MADE IN THE USA

# YOUR **PERSONAL TIC.** ONE FOR EACH FIREFIGHTER.

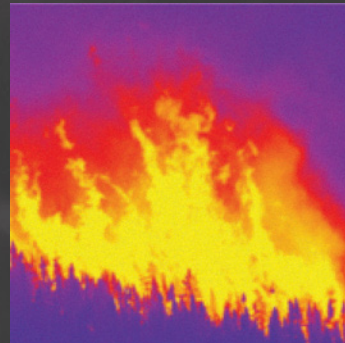

## Reveal

- 120 metre detection distance simplifies electrical utility work
- 36-degree field of view
- -40C to 330C Temperature Range
- 206 x 156 Thermal Sensor accurately identifies overheating motors
- Powerful 300 Lumen Light to for use in tight spaces
- Long-lasting 10-hour rechargeable battery to last the entire shift
- Quick startup provides instant detection
- Library of color palettes to customize the built-in display
- Micro SD card for photo capture and USB transfer
- Accurately inspection for mechanical, electrical and building applications
- Safely examine any site in light or total darkness

## Reveal PRO

- 320 x 240 High-Resolution Thermal Sensor
- 76,800 temperature pixels for maximum image clarity and sensitivity
- Calibrate for reflective surfaces when accuracy is critical
- Wide, 32-Degree Field of View
- Easily scan a large area to identify potential hazards in seconds
- 300 lumen LED flashlight available at the touch of a button
- Measure temperatures from -40° to 330°C
- Diagnose and assess the problem source quickly
- Safely Monitor Hazardous Environments
- Evaluate potentially dangerous situations from a safe distance
- Level and span controls let you isolate and capture the details that matter
- Rugged, rubberised casing with Corning® Gorilla® Glass and intuitive controls go and work where you do
- Save thermal images directly to the 4GB internal hard drive

## Reveal XR

- 275 metre detection distance allowing awareness from afar
- 206 x 156 Thermal Sensor with the resolution needed to identify intruders
- Powerful 300 Lumen Light to spotlight when needed
- Long-lasting 10-hour rechargeable battery to last the entire shift
- Quick startup provides instant detection
- intuitive, single-handed interface
- library of colour palettes to customise the built-in display
- Micro SD card for photo capture and USB transfer
- Accurately observe from anywhere in the building
- safely examine the property in light or total darkness
- stay safe without giving position away

**Thermal Imaging Cameras designed specifically for your smartphone.**  
**Highly portable thermal imager, making it the perfect tool to easily, accurately and safely inspect indoors.**

## Compact

- Wide field-of-view quickly scans the inside of any room for problem areas
- 206 x 156 Thermal Sensor accurately identifies areas of heat loss and gain
- Measures temperature differences from -40 degrees Celsius to 330 degrees Celsius.
- Intuitive, free app from Google Play or iTunes
- Library of color palettes to maximize thermal imagery
- Customizable performance settings to fully personalize the user experience
- Comes with its own waterproof case to withstand the elements
- Accurately inspect mechanical, electrical HVAC and building applications
- Safely examine any job site in light or total darkness
- Work faster and be more efficient from the convenience of your smartphone

## Compact PRO

- 320 x 240 High-Resolution Thermal Sensor
- 76,800 temperature pixels for maximum image clarity and sensitivity
- Adjustable Emissivity and Radiometric Files
- Calibrate for reflective surfaces when accuracy is critical and store every temperature pixel
- Wide, 32-Degree Field of View
- Easily scan a large area to identify potential hazards in seconds
- Focusable Lens for Quick Identification
- Aim and focus from 6 inches to 550 metres for the sharpest image
- Utilizes the Power and Display of Your Smartphone
- Intuitive, free mobile app available on Google Play and iTunes App Store
- Comes with its own waterproof case to withstand the elements.

## Compact XR

- 500 metre detection distance for long-distance tracking any time of the day
- 206x156 thermal sensor for accurate prey spotting
- Never needs charging, so it's always ready to use with your phone
- Library of color palettes to maximize all thermal imagery
- Customizable performance settings to fully personalize the user experience
- Comes with its own waterproof case to withstand the elements
- Fast startup so that you won't miss an opportunity
- Accurately scout terrain from afar
- Track and recover day or night
- Stay safe without giving position away

# NOW AVAILABLE

## MK-3 LED SCENE LIGHT SYSTEM

**INTRODUCING THE NEW  
GENERATION LED SCENE LIGHT  
SYSTEM BY BIG RED TRUCK**

**Designed for Australian Emergency Services Organisations requirements. The BRT Scene light system features two tilt and swivel light-heads and a robust frame.**

- Available in 30 & 50 Watt/AC
- AC/DC Version coming soon.
- 6000 Lumen LED Area Light
- Heavy Duty Adjustable Tripod
- Horizontal and vertical swivel adjustment
- 136° degree wide focusable light range
- 240v Weatherproof plug
- IP65 Light Head
- Protective wire guards fitted over light heads
- Lightweight anodised aluminium frame
- Lifetime manufacturing warranty on frame

**MADE IN AUSTRALIA**
