- Davey Fire Fighter
- Code 3 Lighting

**VF2 Helmet  
Weight Only  
790g**

**Magnetic  
Quick Lock  
Chin Strap**

The new Vallfirest VF2 Multi-purpose Poly Carbonate Helmet offers high strength superior protection and balanced lightweight comfort. This lightweight protective helmet is designed for specialised emergency service rescue operations, including Bush/Wildfire Fire Fighting, Vertical Rescue, Vehicle Extrication and Urban Search and Rescue.

With a fully suspended adjustable EPS head harness featuring a durable, breathable, padded fabric, offering the best wearer comfort available in today's market. VF2 can be easily adjusted by a gloved hand without the use of tools and fastened with an innovative magnetic locking chin strap securing to a three point harness.

**Accessories - Poly Carbonate Visor - Mesh Face Guard - Torch Bracket - Camera Mounting Option**

**Scotty Bravo** back pack features a 22 Litre knapsack, designed to be a simple and portable reservoir for water concentrate (Class A or Class B). The Bravo back pack provides the wearer with a safe and comfortable way to carry liquids used during fire operations. The Bravo system consists of an outer shell with a removable inner bladder. The outer shell also is manufactured using high visibility yellow, ballistic nylon fabric being durable and UV resistant. Includes fully adjustable sternum and waist straps.

**Scotty Bravo**

The **Scotty 4000-FBP** pump is a single action pump knapsack with a foam educting attachment and air aspirating nozzle. The 4000-FBP eliminates the need to batch mix when Class A foam is required.

**Scotty 4000-FBP**

**SOLBERG Bush Fire Foam**

3150A is a synthetic bush fire fighting foam agent specially designed for use on bush fires and all class A fires at a mixture rate of 0,1-1,0%, depending on the use. Its ability to reduce the surface tension of the water increases the wetting capability of the water substantially, giving a faster and better penetration into the combustible solids such as wood, paper and tyres.

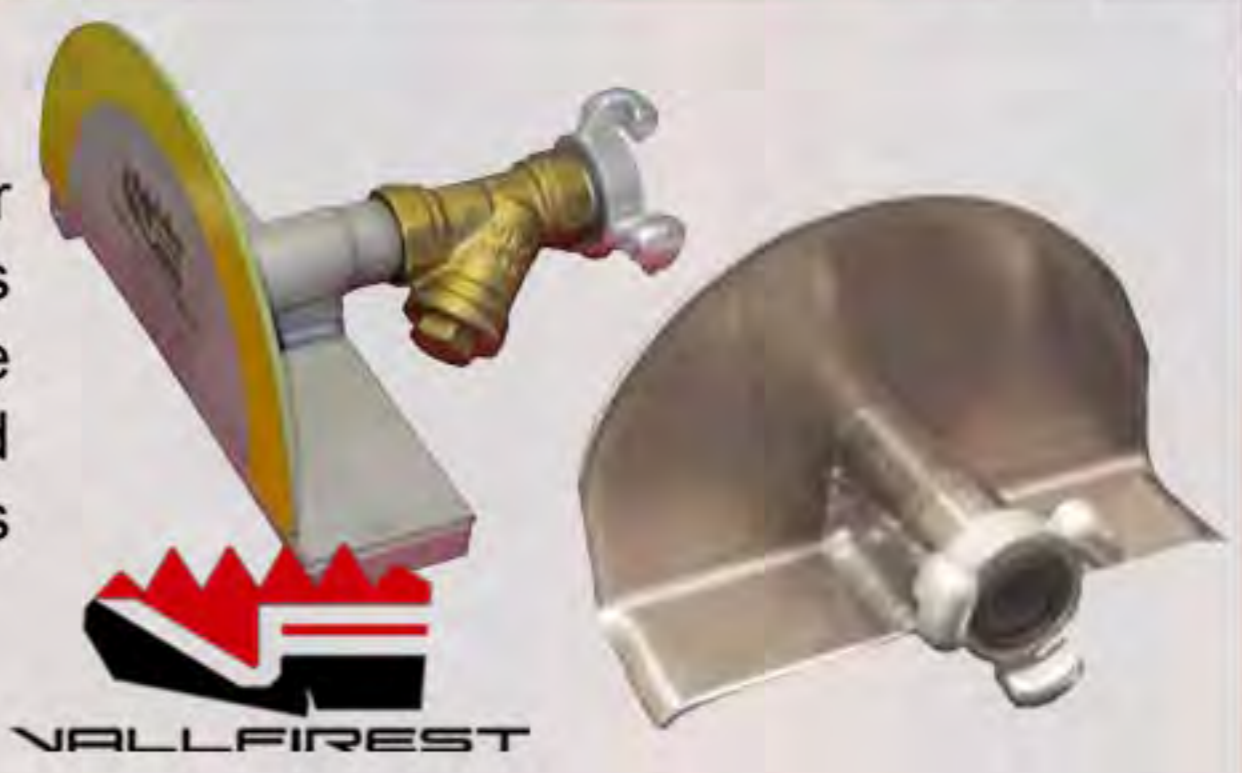

**NEW PRODUCT**

**Wildfire Wet Wall Nozzle**

Vallfirest have just added the new Wildfire Wet Wall to their range of specialized bush fire fighting equipment. This simple but effective bush fire nozzle produces a wall of fine water droplets when a frontline attack barrier is needed between property and personnel. The Wildfire Wet Wall is made from stainless steel and features an inline strainer.

\* Wildfire Wet Wall has a 25bsp inlet.

**Personal Protective Equipment**

**Smoke Mask + Filter**

**VF Goggles**

**Firepro Wildfire Glove**

**Fire Dex**

**Flash Hoods**

# TAIPAN Footwear

5073  
Med Cut  
7" Inch

5074  
Low Cut  
6" Inch

5097  
High Cut  
8" Inch

## Stewart and Heaton Wildland Clothing

Stewart and Heaton have been actively involved with the Australian State and Federal authorities in the research and development of Wildland fire fighting apparel.

This research has identified that the single greatest physical risk to an active wildland firefighter on the ground is physiological heat stress.

A firefighters core body temperature rises, leading to possible minor muscle cramps through to deteriorating mental function and ultimately to life threatening heat stroke.

Contact us today or visit our website to see the latest range of Stewart and Heaton Wildfire clothing.

EasyStrike wind and waterproof matches have been specially designed for camping, fishing, survival and bush fire operations. EasyStrike matches have been made with longer shafts and burning time compared to other matches.

## Drip Torch

The Firebug Drip Torch 4 Litre and 5 Litre are lightweight aluminium bodied, featuring gravitational feed to drip fire, making it simple and quick to use in applications such as burning firebreaks.

The 4 Litre features a fixed wand however the 5 Litre is fitted with a retractable wand, providing easy to use transportation and storage ability.

Vallfirest Knapsack  
19 Litre with 360°  
swivel outlet

1 Litre

Drip Torch

**DIAL-A-JET**  
ROTARY NOZZLES

## Dial-A-JET ROTARY NOZZLE

The Dial-A-Jet® bush fire fighting nozzle is a lightweight, compact hose nozzle built with the firefighter in mind. Proven in real-life scenarios, the smooth design of the casing prevents the hose from catching on undergrowth, whilst the needs of the firefighter are met with a simple twist of the rotating head.

## Bush Fire Hand Tools

**Gorgui  
Tool**  
4-in-1

Now available with removable handle, the Vallfirest "Gorgui" rake hoe multi-functional tool has a central head of aluminium alloy that includes a large blade McLeod tool with increased height and hardened steel Hoe blade!

**EZYBEAT**  
Fire Beater

"What a Whacker!"

# Now Available

The Davey / Honda Fire Fighter pump is one of the first small portable pumps purpose designed and made to suit challenging Aussie bush fire conditions.

BRT are pleased to announce our partnership with Davey Pumps Australia as an authorized specialist dealer by offering the full range of Davey Fire Fighter and Davey Flood Fighter pumps and accessories.

**Experts in water.**

What makes BRT different to most pool and irrigation pump shops is that we understand both the equipment and the set up required for fire, flood and emergency situations. This knowledge allows us to recommend and match equipment for maximum performance and purpose. It doesn't have to be expensive, just done right the first time!

Hose, nozzles, foam, proportioners and filtration are all mission critical components when it comes to bush fire fighting and flood recovery. Get it wrong, and fighting bush fires can get very ugly fast!

Get it right, and your Davey Fire or Flood Fighter pump will deliver and perform every time!
