

PUMPS & BACKPACKS

4002FILL-NPSH/4002FILL-NHT

Backpack Fill Station

The Scotty 4002FILL provides a quick and easy method to refill water-carrying backpacks. Just insert between any 1-1/2" outlet and hose to allow a single-handed quick connect to the 3/4" GHT fitting on the pick up hose of any Backpack. The system consists of a 1-1/2" Water Thief Tee, Double Female Connector (for connection to NHT or NPSH pump outlet), Thread Changer (for connection to NHT hose), 4 foot Hose and Quick Connect shut-off.

All components of the system are made from glass-filled nylon or PVC and are impervious to corrosion. For connection to NHT pump outlets and hoses, order 4002FILL-NHT. For connection to NPSH pump outlets, order 4002FILL-NPSH.

4200-DECON

Hand Pump and Backpack with 4003 MX Air Aspirating Nozzle

The Scotty 4200-DECON is a professional Hand Pump and Backpack system that can be used to apply any kind of water based or liquid de-contamination product. Its features include: a comfortable handgrip attached to a brass tube piston shaft, an inner brass sleeve; fully protected by an outer ABS plastic sleeve and a special, medium expansion air-aspirating nozzle. The hand pump can be "field-stripped" for cleaning without the need of any tools. Made from corrosion-proof materials, it only requires an occasional application of lubricating grease or vasilene on the piston O-ring at the end of the piston shaft.

The 5 gallon (19 Litre) backpack features a 4" Filler Port with a removable debris screen, a pull-tab is mounted on each side of the pack to assist opening bag during filling, a standard 3/4" garden hose thread Outlet Port, 2" wide high strength Nylon webbing shoulder straps (backpack style), protective shoulder pads and a quick release buckle across the chest. For large quantity orders, a number and or logo can be imprinted onto the back-pack.

4002V

4002V

Water Vest

The new Scotty 4002V Water Vest, like its Backpack counterpart, will enable users to carry water or foam concentrate liquids in a comfortable, efficient manner. It comes complete with 3 quick release buckles across the chest, making removal fast and easy. The 4002V is capable of holding up to 6 gallons.

The Scotty 4002V Water Vest is available for purchase by itself (4002V), with a Water Hand Pump (4000-V) or with a Foam Hand Pump (4000F-V).
