## **4037-HF and 4037-LF FOG-STRAIGHT NOZZLES**

Scotty Firefighter's 4037 Fog/Straight-Stream Nozzles with D-Handle Shut-Off have superior design characteristics to work effectively in today's firefighting environment. Manufactured from glass-reinforced, engineering grade nylon, this lightweight unit is extremely durable and is not susceptible to corrosion. It creates a wide, fine mist in fog mode and has excellent reach of stream in straight mode. At 100 psi pressure reach of stream exceeds 70' (23m). The 4037 is available in High-Flow (50 to 100 gpm) and Low-Flow (15 to 50 gpm) models. Comes with either 1.5" NHT, NPSH, or BSP female threads. This Nozzle is fully compatible with Class A and B Foams or Gel products.
