

Wildfire Wet Wall Nozzle

Vallfirest have just added the new Wildfire Wet Wall to their range of specialized bush fire fighting equipment. This simple but effective bush fire nozzle produces a wall of fine water droplets when a frontline attack barrier is needed between property and personnel.

The Wildfire Wet Wall is made from stainless steel and features an in line strainer.

Features:

- Wildfire Wet Wall has a 25bsp inlet.
- Optimum working pressure between 20 and 22 bar
- Maximum working pressure up to 35 bar
- Y-Shaped particle filter with stainless steel mesh
