

Medical Backpack

The Large Medical Backpack features a padded waist belt, 2 large back compartments, 2 small side pockets, a small compartment on the lower back, and a clipped on pouch. It also has external side & top compression straps and body contour shoulder straps. One of the back compartments has elastic webbing to hold your medical items in place, for easy and quick use. The two side pockets include heavy duty webbing for modular pouch attachment. Reflective tape on sides and shoulder straps, and a star of life and the words Emergency Medical printed on the back.
