thermal

Watch the app intro videos in the Settings panel for more.

## Registration

### Why Register?

Registration is primarily a means to provide Seek Thermal with necessary basic information on device ownership to maintain ITAR compliance as manufacturer / exporter of thermal imaging devices. It is required to use the device. We securely hold your information and do not provide it to any other authorities or third-party companies. This also lets us provide you with better customer service, software upgrades, warranty status reminders, and makes it easier to stay connected to new product and company news.

### First Time Registration:

When you plug in your Seek Thermal camera for the first time, choose Sign Up and enter the required information.

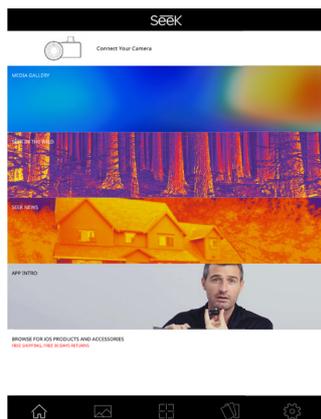

### Changing your Registration:

Go to [thermal.com](http://thermal.com) and login to make changes to your user account.

To read our data policy visit:

[www.thermal.com/datapolicy](http://www.thermal.com/datapolicy)

## Home Screen

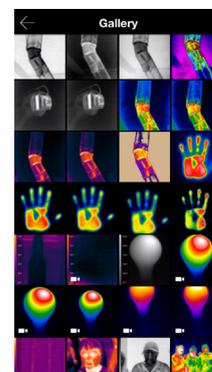

- **CAMERA TYPE INDICATOR:** Shows which type of thermal camera you have connected.
- **MEDIA GALLERY:** Here you will find all your compact photos & videos.
- **SEEK IN THE WILD:** See thermal images from the Seek community.
- **SEEK NEWS:** Read the latest articles featuring Seek Thermal.
- **APP INTRO:** Watch a variety of videos to help you get started with the new Seek Thermal app.
- **BROWSE FOR PRODUCTS AND ACCESSORIES:** Shop for the latest Seek Thermal gear.

## Icon Guide

### Navigating with the Bottom Menu

	<b>Home</b> icon: Select <b>HOME</b> to return to the App home page.
	<b>Media</b> icon: Touch <b>MEDIA</b> to go to your gallery for photos & videos.
	<b>Mode</b> icon: Touch <b>MODE</b> icon to access all features: Span & Level, Spot, HiLo and more.
	<b>Filters</b> icon: Change your <b>PALETTES</b> while in Camera or Video mode any time here.
	<b>Settings</b> icon: All <b>SETTINGS</b> and preferences are located here.

## Thermal Imaging Modes

	<b>Spot</b> mode: Use the crosshair to pinpoint a specific temperature.
	<b>Hi/Lo</b> mode: Pinpoint the highest and lowest temperatures.
	<b>Normal</b> mode: Default mode that maximizes thermal image consistency using auto exposure control.
	<b>Full Frame</b> mode: Displays all temperature data for maximum clarity.
	<b>Span and Level*</b> mode: Easily set and lock a temperature range to display the maximum thermal information of any object or scene. <b>CompactPro Only*</b>
	<b>Threshold Above</b> mode:
	<b>Threshold Equals</b> mode: Colorize temperatures that are above, equal to or below the temperature you set.
	<b>Threshold Below</b> mode:
	<b>Thermal+</b> mode: Experimental mode that allows thermal and visual imaging side by side in real-time.

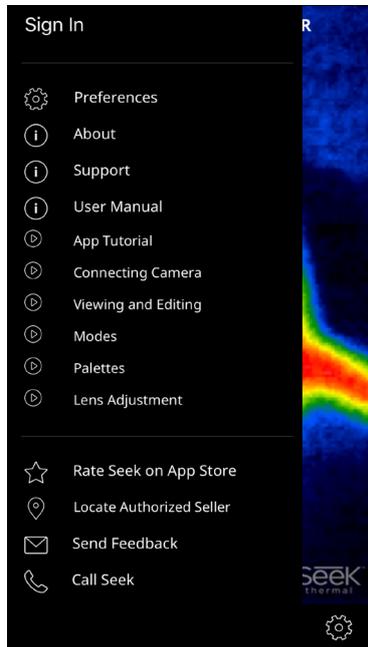

\*Span and Level mode as well as emissivity control are only available with CompactPro

## Settings Drawer

Change temperature units (°C, °F, K), aspect ratio (4:3 or 16:9), and watermarks.

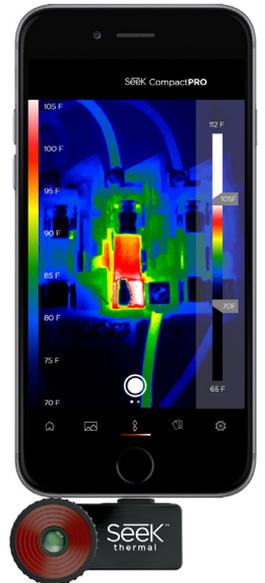

View helpful how-to videos on how to use the Seek Thermal app.

Rate our app and Contact us for more support.

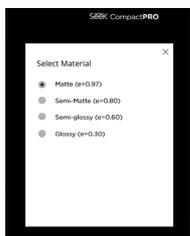

## Thermal Span and Level (CompactPro Only)

Easily set and lock a temperature range to display the maximum thermal information of any object or scene with a set point and range.

## Emissivity Control (CompactPro Only)

Emissivity is a material property that defines how much IR light is reflected from a particular surface. Calibrate for emissivity through four pre-defined settings to ensure accurate temperature readings and reporting.

## Taking Photos & Video

Swipe left and right to switch between photo & video mode.

Made for iPhone SE, iPhone 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6, iPhone 5s, iPhone 5c, and iPhone 5.

Utilizes the power and display of your smartphone. (<280mW)
