

NEW!  
ULTRA

**ULTRA** - Is our premier series made from Bondcote® vinyl coated polyester, and 1.5" BioThane for the handles and 2" removable leg straps. The materials used are chemically resistant and impervious to bodily fluids. Offers quick and easy cleaning using anything from bleach to a fire hose.

• Sizing: **MX ULTRA** - Chest range: 34"-62" / **XLT ULTRA**: 58"-82"

NEW!  
PLUS

**PLUS** - Utilizes the same base construction as the ORIGINAL plus adds the feature of removable 2" BioThane leg straps (Impervious to bodily fluids and chemically resistant), facilitating easier cleaning than the ORIGINAL and allows for inexpensive leg strap replacement. Hand and/or machine washable.

• Sizing: **MX PLUS** - Chest range: 34"-62" / **XLT PLUS**: 58"-82"

ORIGINAL

**ORIGINAL** - is constructed of cordura denier 1000 nylon and 2" polypropylene web strapping (1200lb breaking strength) for the hand-holds and leg straps. Hand/or machine washable.

• Sizing: **MX** - Chest range: 34"-62" / **XLT**: 58"-82"

QUALITY AND INNOVATIVE FIRE AND RESCUE EQUIPMENT

# BENEFITS

**Saves Time! Saves Money!  
Saves Your Back!**

**Experience easier and safer patient handling.**  
19-25 handles allows for team lifting while using proper ergonomics

**Minimize patient discomfort & risk of injury.**  
Cushioned top edge and torso wrap design reduces bruising and skin tears while providing superior patient stabilization and security

**Rapid application even in confined space.**  
You can have handles on your patient from the bathroom floor all the way to the hospital bed with one simple product.

**Serves as a barrier between you and your patient's bodily fluids.** Isolates biohazard mess and protects you and your other equipment from further contamination.

**Minimizes the risk of a Workers Comp claim.**  
EMS personnel have a lifting related injury rate of 21.3 times higher than the national average.\*

\* According to a study conducted by Dr. Brian Maguire.
